	<b>Answer:</b> There will be no further capitalised costs associated with development of Govt Kaehne well (item 2.1(d)). Operating costs (item 1.9) are likely to be similar in Q3-20 and corporate overheads being reduced.
2.	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?
	<b>Answer:</b> Options are being considered by the Board with management in discussions with the Company's US lender. Once a workout plan is finalised with the bank, options to raise additional capital will be considered in conjunction with advisors

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

**Answer:** The company is working with its bankers to finalise a workout plan for the repayment of outstanding debt. ANB Bank is considering the exercise of its rights over assets that are securing the loan.

It is unlikely that the Company will be able to meet its previous oil and gas production business objectives at this time. The Company will continue to focus its resources and efforts on other exploration opportunities associated with the hard-rock battery minerals and hydrocarbon leaseholds that it owns.
